Water System Improvements Project Update: We are very close to completion of this project. All the new water mains have been installed along with new valves and fire hydrants. Completing this has been very trying for everyone in the Ella Young area as the water service has been off and on as these lines have been brought into service. The old mains that were serving the area have been taken out of service. This should help with some of the water clarity problems that everyone has been experiencing. Thank you for your patience. There is still more work to do to upgrade the system and the council is in process of reviewing next steps for further improvements.

The new aboveground water tank will be filled and tested in the near future. This process will include testing the automated valves and system status reporting. When brought on line, the radical swings of summertime water pressure will be a thing of the past.

As always, check the Town's website for the latest information (it is all there). <http://www.lakesidetexas.us/>
