MESSAGE FROM MAYOR PATRICK JACOB

Thanks to the efforts of everyone in town, adhering to the summer watering schedule, our water system is holding its own this summer. We have not had to purchase any water from our emergency supply source. The rain that we have had this summer has also helped with our efforts.

The Council is looking towards the future. As the Town of Lakeside grows as it will according to the demographic studies by the state. We are all aware that water availability is a key issue for Texas. This holds true for our town as Tarrant County's population growth will be in our direction. The Council is researching available information and planning proactively for our future. Given our previous water concerns the Council is holding workshops to develop a long range water plan.

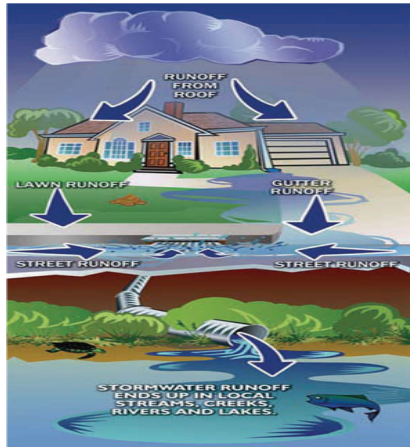

As always, check the Town's website for the latest information <http://www.lakesidetexas.us>
