Breast Cancer Awareness Month

October is Breast Cancer Awareness month. Breast cancer is the most common kind of cancer in women after skin cancer. About 1 in 8 women born today in the United States will get breast cancer at some point. The good news is that most women can survive breast cancer if it's found and treated early. If you are a woman age 40 to 49 talk with your doctor about when to start getting mammograms and how often to get them. If you are a woman age 50 to 74 be sure to get a mammogram every 2 years. You may choose to get them more often. Talk to your doctor about your risk for breast cancer, especially if a close family member of yours had breast or ovarian cancer. Your doctor can help you decide when and how often to get mammograms.

Eye On Water

The majority of water meters have now been equipped with cellular endpoints, allowing you, our utility customer, to monitor your water usage online via "Eye On Water" - a secure website and Smartphone app that allows you direct and secure access to your water usage data. With these tools, you are now able to view your hourly usage activity and gain greater understanding and control of the amount of water you use. You are also able to establish alerts—including identifying potential leaks. To create your personalized EyeOnWater online account visit www.eyeonwater.com/ signup. Or download the free mobile app, "EyeOnWater" available through the App Store or Google Play Store. You will need your account number, your zip code and email address to register for an online account.

Is Outdoor Burning Allowed In Lakeside?

No it is not. The Texas Commission on Environmental Quality (TCEQ) does not allow outdoor burning in our area. They do make some exceptions. TCEQ can be contacted by calling [\(817\) 588-5800](tel:8175885800) or going to their website at <http://www.tceq.state.tx.us>. There is a free booklet on the TCEQ website called Outdoor Burning in Texas that furthers explains these rules.
